

1-PIECE HEADGUARD W/ BAFFLE

MODEL LVHGB

FEATURES:

- Fits 1/2" or 3/4" Fire Sprinklers
- Durable wire mesh construction
- Easy installation with dual hook attaching system
- Protects the sprinklers heat sensing element from spray discharge from sprinklers at a higher elevation

INSTALLATION

1-pc Head Guard installation can be accomplished without tools and is installed upright position*. Disengage both hooks on either side of the guard. Spread the cage open just enough to clear the sprinkler frame and deflector being careful not to damage the sprinkler. Engage the open end of the cage at the base of the sprinkler between the frame and the threads. Reengage both hooks on either side of the sprinkler.

***Note:** The 1-pc head guard with shield will not function properly if installed in the pendent position. For this application use a 1-pc head guard without the shield and a water shield that will thread onto the sprinkler base according to the sprinkler head manufacturers specifications.
