

HYDRANT MARKERS HELP FIND HYDRANTS WHEN THEY ARE NEEDED MOST.

Fire Hydrant Markers

Allow for Easy Locating in Difficult-to-Find Environments

Our Hydrant Markers are made of fiberglass shafts with reflective red and white stripes. Shafts are 3/8" in diameter and available in 4, 5 or 6 foot lengths. Spring mounts allow for greater flexibility in wind, rain or snow, and the top mount model includes a flat mounting bracket.

- Easy to install.
- Top mount model installs easily onto the hydrant's cap bolts.
- Side mount model attaches on the hose nozzle.
- Both models are corrosion and UV resistant.
- Models are shipped fully assembled.

TOP MOUNT MARKERS ATTACH TO THE HYDRANT VIA THE HYDRANT CAP BOLTS.

Top Mount Hydrant Markers

Item No	Length	Weight
125-250-00040	4'	1.70 lbs.
