ADJUSTABLE PRESSURE RELIEF VALVE

The Adjustable Relief Valve can be adjusted from 75-175 psi. Use an approved sprinkler system pressure gauge for desired adjustment. The adjustment cap is knurled for easy adjustment. Cast bronze and marked with directional arrows for proper flow indication.

General Specifications:

- Size 1/2" IPS
- Angle pattern, 1/2" IPS
- Body: Cast Bronze
- Cap: Brass
- Seat Packing: Rubber
- Finish: Rough Brass
- Contains Lead. Not for use in water systems intended for human consumption

*Note: The pressure markings on the adjustment cap are for reference only. Use a system gauge for proper relief setting.
